

## A visit to the Pilsner Urquell Brewery

The history of the legendary Pilsner Urquell lager began in **1842** in the Pilsen brewery and since that time its fame has spread throughout the world.

We learned about the history and secrets behind making the legendary beer.

We could see a modern bottling plant, with its capacity of 120,000 bottles per hour.

We also saw the historic and modern brewhouse and a unique exposition on the ingredients which are used there.

The tour of the brewery would not be complete without a visit to the historic brewery cellars, where we could taste unfiltered and unpasteurized beer on tap straight from oak lager barrels.
